EDUCATION

B.Tech – Electronics and Communication Engineering
Technocrats Institute of Technology, Bhopal, Madhya Pradesh

2020 – 2024
CGPA: 8.1/10

EXPERIENCE

ANK Finance, Jabalpur
Team Leader

Sept 2025 – Present

- Led and supervised a team to achieve daily operational and business targets while maintaining high performance standards.
- Monitored team productivity, assigned tasks, and provided guidance to improve efficiency and service quality.
- Conducted training and mentoring sessions for new team members, ensuring smooth onboarding and skill development.
- Collaborated with management to resolve operational challenges, prepare performance reports.

Magnet Brain, Bhopal
Graphic Designer

June 2024 – July 2025

- Designed high-quality social media creatives, banners, posters, and promotional materials while maintaining consistent brand identity.
- Created visually engaging marketing assets using industry-standard design tools, improving audience engagement across digital platforms.
- Collaborated with content creators and marketing teams to develop creative concepts and delivered projects within deadlines.
- Edited and optimized graphics, images, and layouts for web and print, ensuring high-quality visual presentation and user experience.

Vaultsphere AI Technologies Pvt. Ltd.
Web Developer Intern

Mar 2022 – Sept 2023

- Developed responsive web applications using HTML5, CSS3, and JavaScript ensuring cross-browser compatibility.
- Designed normalized MySQL database schema and integrated secure backend connectivity.
- Implemented authentication logic, input validation, and SQL injection prevention techniques.
- Optimized frontend performance reducing page load time by 25% through code refinement.

PROJECTS

Arduino-Based Fuel Adulteration Detection System

Tools & Technologies: Arduino Uno, O₂ Sensor, Arduino IDE, Embedded C/C++, Breadboard, Jumper Wires, USB Serial Communication

- Developed an Arduino-based prototype to detect potential fuel adulteration by analyzing oxygen (O₂) sensor readings related to the air-fuel mixture.
- Integrated an O₂ sensor with an Arduino microcontroller to collect and process real-time sensor data for fuel quality monitoring.
- Implemented sensor data acquisition, threshold-based analysis, and result display to identify abnormal fuel characteristics.
- Tested and calibrated the system to improve measurement accuracy and ensure reliable detection under different operating conditions.

Tic-Tac-Toe Game Using Python

Tools & Technologies: Python, VS Code, Git, GitHub

- Developed a two-player Tic-Tac-Toe game using Python with a command-line interface and interactive gameplay.
- Implemented core game logic, including player turns, input validation, win/draw detection, and board state management.
- Applied modular programming principles by organizing the code into reusable functions, improving readability and maintainability.
- Tested and debugged the application to ensure accurate game functionality and a smooth user experience.

TECHNICAL SKILLS

Database: Excel, AutoCAD, PostgreSQL, SQL Queries, Database Normalization
Web Development: HTML5, CSS3, Bootstrap, DOM Manipulation
Tools: Arduino IDE, MATLAB, Proteus, KiCad, Git, GitHub
Soft Skills: Problem Solving, Teamwork, Communication, Leadership

PERSONAL DETAILS

Name	Trivenee Markam
Father's Name	Mr. Ramkumar Markam
DOB	15 Nov 2003
Gender	Female
Nationality	Indian
Marital Status	Unmarried
Languages Known	English, Hindi
Hobbies	Sports, Reading, Learning Languages

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge and belief.

Date: 07 July 2026
Place: Indore
